

4th conference COPM2024

Computational Oncology and Personalized Medicine

Building the world of tomorrow, today

We cordially invite you to the conference organised under the First Priority Research Area (POB1) of the Excellence Initiative - Research University programme, which will be held on **May 22nd, 2024**, as an online event. We particularly invite young PhD and PhD students to submit abstracts of oral or poster presentations. Abstracts of talks should be prepared in English. The language of the conference is also English. In addition, you are invited to submit a full-length chapter manuscript (10-15 pages in English) to be published in the "Recent Advances in Computational Oncology and Personalized Medicine" monograph (Volume 4, the Silesian University of Technology Publishing House, for Polish authors: 20 points). **Participation in the conference is free of charge.**

Topics:

- Computational oncology
- Personalised medicine
- Biomaterials and medical biotechnology
- Imaging informatics and telemedicine
- Biomechanics
- Analysis and design of drugs
- Public health

Important dates:

- 30.04 - abstract submission
- 10.05 - information on qualifying the abstract for presentation at the conference
- 22.05 - conference day (ZOOM platform)
- 29.05 - full-length manuscript submission
